

# Warehousing Storage & Order Fulfilment

“ **Minimise your costs by putting your products in the hands of the experts.** ”

From the moment your stock arrives at our centrally-located warehouses, it will be stored, managed and handled with care and attention by our skilled staff.

Mini Clipper's warehouse management system means we can monitor stock levels, receive orders electronically, and pick and pack with speed and accuracy.

And when it comes to getting your products packaged and delivered safely to their destination, we are perfectly placed to do the job quickly, from a jiffy bag to a full truck load, despatching via the most efficient means.

Our warehousing is located in Bedfordshire, 35 miles northwest of London, and within minutes of the M1 - excellent for fast delivery and distribution to all corners of the UK.

If your operation demands secure, reliable storage and distribution, call Mini Clipper on **01525 244700** and let us quote for your business.

**Key service features:**

- Dedicated account management staff providing accurate reporting of kpi's
- Receipt and storage of palletised and non-palletised stock
- Short and long term storage, from 10 to 5000 pallet spaces
- Receipt of orders electronically for fast order fulfilment
- Distribution throughout the UK and Europe
- State of the art security, CCTV, 24 hour manned premises
