

## **Miniclipper Logistics: COVID-19 UPDATE**

### **Miniclipper Logistics' ongoing response to COVID-19**

**Miniclipper Logistics has continued to operate a full high-performance delivery and warehousing service to customers throughout COVID-19. Our response has been driven by the guidelines developed by HM Government and Public Health England, complying fully with emergency legislation, and creating new processes and ways of working to protect the health and wellbeing of our clients and employees. Customers have seen no compromise in Miniclipper's services and indeed with the support of our pallet networks, we have responded instantly to changing customer volumes.**

We operate a social distancing policy, and risk mitigation is completed for any activities that require employees to work at a <2min proximity to each other. Screens and barriers have been installed at our offices and we have introduced flexible working practices and reduced risk in areas of 'pedestrian congestion' within the workplace. Meetings now take place via Teams or Zoom call, reducing the need for face to face interaction and many of our managers are working from home.

Appropriate PPE is supplied to employees including face masks, gloves and sanitising wipes both inside the workplace and for drivers and vehicles. Employees have their temperature taken daily before commencing work duties onsite and complete a weekly RiskEx risk assessment to verify that they are feeling well and are safe to attend work.

We operate in conjunction with our pallet network partners – **The Palletline Network** and **The Hazchem Network**. Bespoke processes and procedures identified by the networks' COVID-19 risk assessments have been implemented by Miniclipper. This includes updated driver protocol when attending customer sites or pallet hubs.

We will continue to operate within any new guidelines as recommended by the UK Government.

Should you require further detail on our COVID-19 risk assessment and actions, please contact us via our enquiry form.

**As well as continuing to fulfil our current customers' requirements, we are welcoming new customers requiring both warehousing and transport services.**

**Please contact our Sales team at [sales@miniclipper.co.uk](mailto:sales@miniclipper.co.uk) who will be pleased to arrange a convenient time to discuss your logistics needs.**
